Reservations For Port Dedication Received At Meet

Although the dedication of the new Truckee Tahoe Airport is still four months away, reservations are already being made and the program is shaping up, according to the directors and Manager Andrew Creglow.

Two members of the board, Zeph Rose and Lauren Russell, accompanied by Manager Creglow were in San Jose Saturday to attend a meeting of the California Council of Aviation Associations. They attended the morning session and were advised that at least 150 members would attend the dedication on June 20-21.

En route home, the three stopped off at Sacramento where they discussed the program with John Patterson, official of the California Flying Farmers and were advised that it was very probable that a large number of that organization also would attend. The Flying Farmers will be making a tour of the state between June 18 and 21 and had tentatively planned to be in Mexico on June 21 but advised the local delegation that this plan could be changed.

The program was presented to the San Jose meeting by Rose and Creglow. They made the trip in William Briner's plane, piloted by Russell, returning home Saturday night after dark and reported the airfield, bordered by snow was an easy target for landing.

Acceptance of invitations to participate in the program have been received by Congressman Harold T. Johnson, Clyde Barnett, director of the state aeronautic department, Congressman Walter S. Baring of Nevada and others. Governor Edmund G. Brown said he was attempting to fit the date into his busy calendar.

It is interesting t onote that the cost per passenger, per mile for the trip was only three cents. indicating the low cost of flying.

Mrs. Linda Del Pro was reported missing by her two sons when she failed to show up at their car. The Soda Springs Ski Patrol and security Officer Tom Dolley started the search at 3 p. m. and at 6 p. m. the missing woman was found in deep snow near Donner Ski Ranch, having walked some four and half miles in her frantic search for the car.

She was handicapped by not being able to speak English and although there were thousands of people in the area she wandered helplessly, cutting her hands on icy snow crust. She had been left near Lake Van Norden to watch the tobogganers and was told by her sons to walk down the road until she came to the car.

Voters To Decide Sierra Bond Issue At Polls Tuesday

Voters of the Sierra Junior College District, which includes the Truckee and North Lake Tahoe communities, will be asked to approve a bond issue for $2,500,000 at Tuesday's election.

The funds are proposed for the construction of six buildings for 28 classrooms and laboratories to house 800 more students, to double the library space and to finish the second phase of the master plan.

Proponents said that the cost to the average home owner in the district will be approximately a cent a day. They also said that $194,000 in state funds will be granted Sierra College if the measure is approved by the required two-thirds majority of those voting.

Failed In September

Last September, when the same issue was presented to the voters, it failed to carry by 211 votes in the 54 precincts in the district. It was a very light vote with 8,254 favoring the bonds and 5,292 opposing.

At that time, Truckee voted 50 to 41 for the bonds, lacking the required two-thirds. Kings Beach voted 72 to 39 against the bonds and the other three local precincts, Tahoe City, Floriston and Soda Springs gave it the required number, Tahoe City being 91 to 52, Floriston, 14 to 6 and Soda Springs 14 to 8, all in favor.

The polling places in this area will be at the Donner Trail school at Soda Springs, the Kings Beach elementary school, Tahoe Lake school at Tahoe City, the post office at Floriston and the school administration building (old elementary school) in Truckee. Polls will be open from 1 a. m. until 7 p. m.

It is estimated by President Harold Weaver of the college there will be 1,500 students registered next fall with another 750 night students.

If the bonds carry the total bonded indebtedness of the college will be about $5,000,000, about half of its bonding capacity.

In event the issue failed to pass and until more facilities are constructed, about 150 day students each year will be programmed for night classes, Weaver explained.

SIERRA PACIFIC MAY HAVE NUCLEAR PLANT

Sierra Pacific Power Company is preparing a proposal for the atomic energy commission aimed at construction of a nuclear power plant a short distance north of Yerington at a site recently purchased by Sierra Pacific for power plant development.

The proposal is in response to an invitation from the A.E.C. issued February 14. Any power company can submit a proposal prior to the deadline of April 15 set by the A.E.C.

Fred L. Fletcher, Sierra Pacific president, has been in Washington, D. C., with power company vice presidents Merle H. Atcheson and Richard G. Campbell, discussing and studying what should be included in the Sierra Pacific applicaiton for the power plant. They were conferring with engineers of the Babcock & Wilcox Company which developed the specific type of reactor under consideration.

Fletcher said that he hopes the the A.E.C. will find the Sierra Pacific proposal the most suitable of those submitted because "an atomic power plant of this type would be a great benefit to Nevada and to Lyon County."

The cost of the power plant is estimated at about $30 million. At the height of constructoin, a work force of 500 men would be required.

The proposed plant would be a "spectral shift" type capable of producing over 100,000 kilowatts of electric power. The A.E.C. invitation asks for a cooperative arrangement covering design, construction, and operation.

The spectral shift reactor is a type which has not yet been used in commercial operation, but engineers claim that it will be considerably more efficient than other nuclear power plants now in existence.

It is designed so that it can operate for as long as 3 years with a single refueling.

The plant is to be completed not later than the spring of 1969 and could be placed in operation sooner.

BOAT LICENSING NOT APPLICABLE TO LAKE

SACRAMENTO — California's new law for licensing of operators of motorboats carrying passengers for a fee applies only on state waters not under Coast Guard jurisdiction, according to Lachlan M. (Lock) Richard, chief, division of small craft harbors. For example, the law applies to Lakes Arrowhead and Berryessa, but not coastal waters, Lake Tahoe, or the Delta.

Richards also stated that the new license applies only to power boats carrying four or more passengers for a fee. He emphasized that operators of boats not carrying passengers for hire do not require an operator's license.

REE BRUNELL, WINNERS STAR IN NEVRDA LODGE

CRYSTAL BAY —Reports filtering in from our men in the snow-capped Sierra note that the newly organized Ree Brunell and The Winners quintet now holding forth on the Topaz Room stage at the Nevada Lodge, North Tahoe's year around fun-cenetr, far exceed advance billing as a startling new showcase for the talents of five dynamic young entertainers.

The new group stars at the Nevada Lodge's new Topaz theater-lounge and dining room through March 15.

TEICHERT LOW IN BID FOR HIGHWAY WORK

A low bid of $240,661 was received last Wednesday by the State Division of Highways to construct an interchange on Interstate 80 at Crystal Springs Road in Placer County about half a mile west of Baxter.

A Teichert & Son, Inc. of Sacramento was lowest of seven bidders, according to officials at the Marysville district office.

Construction will begin in four to six weeks and is expected to be completed in another seven months.

Traffic will be allowed continuous use of the highway but may be restricted to one lane in each direction during certain phases of construction at which time public announcement will be made.

The project includes installation of drains and stabilization of the freeway embankment.

The Point Bonita lighthouse at the entrance of San Francisco Bay logged 2,400 hours of heavy fog in 1962.

Once in a while something unusual occurs that excites our interest in far away places. The other day "Tiki" attracted the attention of many passersby and kept his owner busy telling of his origin and background. Tiki is a three year old gibbon which was brought from his native home in Borneo by a family friend. This gibbon is one of the smallest of all this species and is found only in the wild jungles of Boreno and is call the wah-wah. Actually it is a pigmy gibbon and of course tailless. His antics are most amusing and his inquisitive pixie face keeps one fascinated.

Owner is Warren Whitlock of Bijou who also owns a capuchin monkey commonly associated with an organ grinder. Both pets take turns traveling with their owner who is known neither for himself or his business but from his unusual pets, undoubtedly the only two of their kind at Lake Tahoe.

The way the Whitlocks acquired their pets is another unusual story. A close friend of theirs who lives in Oregon has a veneer plant and twice a year he flies his plane to Borneo to pick up rare woods that are also only found in this part of the world. He dries, finishes and processes this wood for his business.

The natives of Borneo eat these gibbon as well as have them for pets, and consider them a delicacy. However, having heard one of my parents telling about their grandparents crossing the Isthmus of Panama and having a rare meal of monkey which they couldn't eat because the appearance was too human, wonder if a gibbon wouldn't affect one the same way.

Wiley and Bernita Jones of Brockway had a nice mid-week vacation last week when they went to Sparks to see Keely Smith. Relaxing with the Jones' were Mr. and Mrs. Pierre Vedel of Concord.

Happy birthday to Gloria Korich of Tahoe City and Pearl Drulias of Kings Beach who both celebrated on February 22.

Olecola Rutledge of Kings Beach had the misfortune to fall on the ice and sprain her arm. Taking a forced vacation which she is not enjoying.

The Methodist choir of the Kings Beach Community Church is having a dessert card party today (Thursday) at 1 p. m. in the Fireside Room of the church to which members, their friends and the public is invited. Charge is $1 per person and the funds are for music.

Mike Kornazewich, Jr. celebrated his ninth birthday February 18 with a party at the home of parents Mike and Virginia Kornazewich at Kings Beach. Guests enjoying games, cake and ice cream with Mike were Mike Weiss, Dave Ferrari, Jeff Molsberry, Mike Maxheimer, Bill Holley, Rickey and Johnny Springer, David Briscoe, Buddy Bitler, Mike Fontana and Calvin Felte.

Thelma Burroughs, formerly of Tahoe Vista now residing in Sacramento, visited Dottie Martin at Tahoe Vista and Ann and Curley Mason at Kings Beach last weekend. Thelma is still employed at Dewitt Hospital in Auburn. This was Thelma's first visit to friends at the lake in a long time and they report she is fine and happy to be back for even a brief visit.

Frank and Terry Baker of Kings Beach have purchased the Bud Mandeville home also in Kings Beach. The Mandevilles recently have moved to a new home at Incline Village. The Bakers are in the process of building a new beauty salon on the premises which they plan to open March 17. March 17 is also Terry's birthday and Frank has promised a green champagne opening since this date honors St. Patrick too. Just hope this is the color of the champagne and not the vintage!

Ann Fuhrmann of Kings Beach has been enjoying a visit from her mother, Mrs. C. Bournelli of San Francisco.

Mr. and Mrs. I. W. Flevell of Carnelian Bay have returned home after a wonderful four months in Hawaii. The Flevells are the parents of Mrs. Guy Wilson and after hearing of the marvels of the islands, the Wilsons are contemplating a trip this summer.

Jimmy Lyons of Carnelian Bay has returned home after a round-the-world tour.

Dr. and Mrs. Ivan Hull and son Thomas of Kings Beach have welcomed five new members to their family. The nieces and nephews of Mrs. Hull — Dick, Jennifer, Christine, Daniel and Sandy, formerly of San Diego. How wonderful for everyone.

Lyle and Adeline Gunkel of Tahoe Vista have welcomed two new additions to their family. Adeline's twin nieces, Karen and Carol

OOPS...
We did it again!

We're the first to admit that we build 2-wheel drive trucks differently from anyone else. You may call it building them backwards . . . or upside down . . . or even sideways. Whatever you choose to call it, it's a fact that we do build them differently. But we do it for a very good reason.

We do it because we think 2-wheel drive trucks should be just as rugged as 4-wheel drive trucks. So we start out by actually building a 4-wheel drive 'Jeep' Gladiator truck, but without the transfer case and front end power train. And there you have it . . . a 2-wheel drive 'Jeep' Gladiator truck with all the heavy duty components and ruggedness of a 4-wheel drive truck.

Sure, it's doing things differently. But it results in a big bonus for the Gladiator owner . . . especially since prices* are competitive, too.

Why not see your 'Jeep' dealer today and get all the facts.

*Based on manufacturers' suggested prices.

TOBOGGANS BANNED ON SUMMIT SLOPES

SODA SPRINGS — The Soda Springs ski area, one of the few resort spots where toboggans, sleds and saucers were permitted, has put a ban on the use of the instruments there. Lack of parking facilities in the area was given as the main reason for the ban, Max Williamson of the Soda Springs Ski Corporation said. Williamson estimated that more than 700 persons skied there Sunday.

NEW SCHOOL BID AT INCLINE ACCEPTED

INCLINE VILLAGE — The Washoe County School District has accepted a bid of $343,825, or about $20,000 under the estimated cost, for construction of the Incline school.

The bid was made by R. F. Sweet and was the lowest of eight submitted.

Construction is expected to start immediately, according to Darrell Swope, administrative assistant in charge of planning and construction for the district.

RECOMMENDATIONS MADE BY GRAND JURY

The Nevada County Grand Jury in its 1963 report filed last week, made one recommendation to the state legislature and three to the board of supervisors.

In the recommendation to the legislature, the grand jury asked that a committee be named to investigate and propose amendments to modernize the procedure of the grand jury by staggering the terms of the jurors to assure greater efficiency but no juror to serve mone than two years; that grand jurors be empowered to employe investigators outside the normal scope of the district attorney; that comments of county board of supervisors, in answer to recommendations of county grand juries, be at public meetings.

The grand jury recommended to the supervisors that the board meet once a week in regular executive session and that extra meetings be devoted mainly to reports from department heads.

That the supervisors give consideration to the establishment of county controller and auditor and that the board establish a county public works department headed by a registered engineering personnel.

A Volkswagen dealer is a man of many parts.

5,008 parts, to be exact. And most of them fit any Volkswagen ever made.

(Because most are interchangeable from one year to the next.)

Which gives us an enormous edge, and enormous depth.

We can repair any year VW. Or even build you a new one. All the parts are on hand or on tap.

(That's why VW service is fast and cheap.)

A fuel pump is $9.95*. A new fender, $18.95*. Plus installation.

But what impresses people most about our service is how we treat them. Like a customer. Even for a 10¢ fuse.

The VW is built like a $5,000 car.

Why shouldn't it get serviced like one?

INITIAL SWISS DANCE IS VOTED BIG SUCCESS

The initial dance sponsored by the Sierra Swiss Club at the Hofbrau in Squaw Valley February 15 attracted a large crowd and was a resounding success.

Old-time Swiss music by Vocel and Gander was enjoyed as was the Swiss yodeling by Pete Dobler and Max Schynder during the intermissions. Dobler and Paul Inhof also entertained on Alphorns and Jerry Burch pleased the crowd with an exhibition of flag tossing accompanied by music.

A special surprise was the huge cake served to the dancers and which was prepared by the Squaw Valley baker, Tony, and presented by Martha Frangniere. It was decorated with a replica of the Matterhorn with two Alphorn players.

DINNER IS PLANNED TO AID IN FINANCING JUNIOR SKI MATCHES

TAHOE CITY—The Lake Tahoe Ski Club is very fortunate in having the privilege of hosting the Junior National Ski Championships at Alpine Meadows in March. This meet is equivalent to the World Winter Olympics on a junior level with teams competing from the United States, Canada and Mexico.

The top competitors often go on to become the athletes and stars of the winter Olympics. Tahoe City's Olympic medal winner, Jimmy Heuga was a winner of several Junior National Ski Championships.

To help meet the expenses of the championships, the Lake Tahoe Ski Club plans a buffet dinner party with entertainment at the Nevada Lodge on Thursday, March 5 at 7 p. m. Tickets will be $2.50 and may be obtained at Porter's Clothing store and Dr. Schwartz's optometric office in Tahoe City and at the Chamber of Commerce office in the North Tahoe Village in Kings Beach.

Members of the community desiring fun, as well as an interest for supporting the Junior National Ski Championships are invited to come. Tickets will be available at the door.

Charles Leland Workman, 33, Reno, accused of passing three worthless checks totaling $250 at Smart's was sent to Vacaville for diagnosis and treatment when he appeared before Judge John Keene of Sierra County, sitting for Judge Vernon Stoll in the Nevada County superior court last Friday.

CLAY-LISTON FIGHT

JOY ADAMSON WILL BE CLUB SPEAKER

Joy Adamson, the woman who has won world fame with her fascinating stories of relationship between man and an untamed creature of the wild comes to the Reno Executive Club Wednesday, March 4 at the Elks Club.

It is hard to believe that the articulate, charming woman, so at ease with people at receptions, has lived more than 25 years in the wilds of Kenya and "mothered" a lioness. It is hard to believe until she speaks of things closest to her heart: Elsa, the lioness and her cubs, the intrusion of civilization which threatens to wipe out the wild life of East Africa.

Joy Adamson is Vienna-born and has been living in Africa for more than 20 years. Her big aim is a project designed to preserve the wild life of Africa. Her latest book, "Forever Free" was among the best sellers.

A number of local members of the Executive Club will attend the meeting and hear the interesting talk by Mrs. Adamson next Wednesday.

To Attend Meet—
Mr. and Mrs. Francis Longo will go to Pasadena early next month where the former will attend the convention of the California Municipal Utilities Association between March 10 and 13.

FOUR CANDIDATES

(Continued from Page 1)

and Margarette Brown Meggs, R, Grass Valley.

The new law which requires potential candidates for legislative office to file a notice of intention to seek the office in advance of actually filing nomination papers, brought out 466 hopefuls for the 100 legislative seats up for election this year.

The period for filing notice of intent ran from February 10 to 19, with the actual time for filing nomination papers to run from February 24 to March 20.

The law also requires candidates for judicial offices to file a notice of intention and in that field, two, F. W. Wilson, the incumbent, and Frank H. Snyder, have filed for the Truckee Judicial District Court. Judge Vernon Stoll, incumbent, was without opposition for the superior judgeship of Nevada County and Judge Robert Fugazi is without opposition for the judgeship of the Tahoe Judicial District Court.

PHONE PROGRAM

tion expenditures during the coming year reflect our faith in this area's economy and our desire to provide the communications services by our customers."

The $850,000 which Pacific Telephone will spend here in 1964 is only part of the company's overall contributions to the community, Domergue said.

"During the coming months, we expect to pump more than $1.4 million into the local economy in the form of construction expenditures, payrolls and taxes, and local purchases of materials and services."

Pacific Telephone property taxes in the Tahoe area during fiscal year 1963-64 will total about $50,000 while wages paid to some 90 employes will top $530,000.

The company expects an increase of about 14 per cent in the number of telephones in the Tahoe area during the next 12 months. There are now approximately 8,995 phones in service but by the end of 1964 this should increase to about 10,260.

Telephone calling volumes, which have been increasing at the rate of about 20 per cent a year, jumped to 11,363,659 in 1963.

Similar growth patterns are evident in the company's plans and forecasts for the rest of the northern counties area.

The $100.7 million earmarked for expansion is up $12 million from the 1963 expenditures of $88.7 million and nearly $17 million more than was spent in 1962.

HORSEMEN

held at the Truckee fire station the first Tuesday of each month at 8 p. m. and open to anyone wishing to attend. Open house will be held March 3 and everyone is invited. New members are invited to join and it is not necessary to own a horse or be a rider. Following each meeting entertainment will be enjoyed with movies, dancing and refreshments. Both junior and senior members are urged to attend.

Activities planned for this year include spring round-up breakfast rides, trail rides both day and overnight, search and rescue unit, remarking old Emigrant trail, care of horses and horsemanship, queen contest for third annual Truckee-Donner Memorial Wagon Train trek from Reno to Donner State Park to consume four or five days and which will be open to all who wish to participate.

In the autumn there will be the traditional fall rendezvous.

FIRE DAMAGES HOME
